

YEAR 8 TECHNOLOGY MANDATORY

The Riv Burger | 25-period teaching program

Food and agricultural practices | Teacher review copy v1.6

Course	Year 8 Technology Mandatory	Syllabus	Technology 7-8 Syllabus (2023)
Delivery	10 weeks 25 x 60-minute periods	Pattern	5 periods per fortnight
Lesson balance	7 theory 10 project/folio 8 practical	Review	Before 2027 delivery
Status	Local teacher review only	Approval	Teacher to confirm

Use the numbered periods as the teaching program. The website supports lessons; it does not replace project, folio or supervised practical time.

Stage 4 outcomes

Outcome	Official wording
TE4-SDP-01	explains relationships between sustainability, design and production
TE4-PDP-01	describes the practices and processes of designers and producers
TE4-MSD-01	explains how materials, systems and components contribute to solutions
TE4-PPM-01	applies processes in the planning, management and production of projects
TE4-DES-01	communicates and evaluates design ideas and solutions
TE4-SAF-01	selects and safely uses tools, materials, technologies and processes
TE4-DIG-01	demonstrates technological literacy to safely interact in digital environments

Teacher-to-confirm register

When	Decision needed	Confirm by
Before the unit	Timetable, lesson order, supports, allergies and dietary needs	Teacher / faculty
Before each practical	Activity, ingredients, equipment, supervision and current risk controls	Teacher / faculty
Before ordering	Final recipe, quantities, storage and production date	Teacher / faculty
Before final production	Consecutive Periods 22-23, roles, resources and clean-down	Teacher / faculty
Before assessment	Task, marks, due date, conditions and submission method	Teacher / faculty

Teaching program | Periods 1-10

10 x 60-minute lessons. Text is 10 pt and wraps within each cell.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
1	Site/theory	Launch the design challenge	Introduce the design situation, user and need. Read Module 1, sections 1-2.	Factors affecting the design of food practices	Initial design notes TE4-PDP-01, TE4-DES-01
2	Project/folio	Design brief and criteria	Model a clear brief and criteria. Students begin Activity 1.	Critical and creative thinking to assess ideas for quality solutions	Approved brief and criteria TE4-DES-01, TE4-PPM-01
3	Site/theory	Food safety	Teach hygiene, contamination, hazards and controls in Module 2.	Safe use of tools, technologies and processes	Safety notes and checks TE4-SAF-01
4	Practical	Foundation safety practical	Run a teacher-approved food-safety demonstration or practical.	Practical skills using equipment, tools and processes	Hygiene and safety readiness TE4-SAF-01, TE4-PDP-01
5	Project/folio	Folio and readiness checkpoint	Finish Activity 1 or 2; check folio setup and practical readiness.	Document design processes for a food project	Folio checkpoint TE4-PPM-01, TE4-DIG-01
6	Site/theory	Tools, workflow and mise en place	Use Module 3 to teach tools, workstation setup and clean-down.	Select and justify tools, techniques and processes	Tool and workflow notes TE4-MSC-01, TE4-SAF-01
7	Practical	Tools and workflow practical	Run a teacher-approved tools, workflow or food-skills practical.	Safe practical use of tools and processes	Workflow and readiness evidence TE4-SAF-01, TE4-PPM-01
8	Site/theory	Burger anatomy and sensory quality	Use Module 4 to examine layers, flavour, texture, moisture and stability.	Characteristics and properties of food	Sensory and layer notes TE4-MSC-01, TE4-DES-01
9	Practical	Product analysis or sensory practical	Run a teacher-approved product-analysis or sensory practical.	Ingredient selection and preparation for nutritional value	Sensory profile TE4-MSC-01, TE4-SAF-01
10	Project/folio	Layer plan	Complete Activity 4 and explain a workable layer order.	Use design factors to evaluate food-solution quality	Labelled layer plan TE4-DES-01, TE4-PPM-01

Teacher to confirm before use: Periods 4, 7 and 9 activities, ingredients, equipment, supervision and current risk controls.

Teaching program | Periods 11-20

10 x 60-minute lessons. Text is 10 pt and wraps within each cell.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
11	Site/theory	Ingredients and agriculture	Use Module 5 to teach farm-to-plate systems, seasonality and sustainability.	How food products are grown, harvested, made, packaged and distributed	Ingredient journey notes TE4-SDP-01, TE4-PDP-01
12	Project/folio	Ingredient research	Research ingredient origins, record sources and complete Activity 5.	Current and emerging production and distribution technologies	Ingredient journey and sources TE4-SDP-01, TE4-DIG-01
13	Site/theory	Develop design ideas	Use Module 6 to model concepts, annotations and selection by criteria.	Critical and creative thinking to develop quality solutions	Concept-planning notes TE4-DES-01, TE4-PDP-01
14	Project/folio	Concepts and selection	Create four concepts, compare them and justify the selected design.	Document and communicate design processes	Four concepts and selection TE4-DES-01, TE4-PPM-01
15	Practical	Component or recipe trial	Run a teacher-approved component or recipe trial; record changes.	Select food preparation techniques and production skills	Trial evidence and refinements TE4-SAF-01, TE4-PPM-01
16	Site/theory	Garden and herbs	Use Module 7 to teach plant needs, harvesting, resources and waste.	Community food initiatives and sustainable resource management	Herb and plant-needs notes TE4-SDP-01, TE4-MSD-01
17	Practical	Garden observation or alternative	Complete an approved garden observation or teacher-supplied alternative.	Agricultural practices under changing conditions; improve quality and reduce waste	Observation record TE4-SDP-01, TE4-SAF-01
18	Project/folio	Final recipe and food order	Use Module 8 and Activity 8 to write the recipe and food order.	Document food-production design processes	Recipe and food order TE4-PPM-01, TE4-DES-01
19	Project/folio	Workplan and approval	Prepare the workplan, tools and resources; obtain teacher approval.	Select techniques and justify equipment, tools and processes	Approved production plan TE4-PPM-01, TE4-SAF-01
20	Practical	Production rehearsal or trial	Run an approved rehearsal or trial; update recipe and workplan.	Collaboratively test, modify and improve food products	Revised recipe and workplan TE4-SAF-01, TE4-PPM-01

Teacher to confirm before use: Period 15 trial; Period 17 garden access or alternative; Period 20 rehearsal; all resources and current risk controls.

Teaching program | Periods 21-25

5 x 60-minute lessons. Text is 10 pt and wraps within each cell.

P	Type	Focus	Teaching and learning	Syllabus content	Evidence / outcomes
21	Project/folio	Final practical preparation	Use Module 9. Check recipe, workplan, roles, resources and safety.	Document production planning and safe processes	Final practical approval TE4-PPM-01, TE4-SAF-01
22	Practical	Final production - block A	Set up and begin production using the approved recipe and workplan.	Use equipment, tools and techniques to develop practical skills	Teacher observation and process evidence TE4-SAF-01, TE4-PPM-01
23	Practical	Final production - block B	Finish, present, photograph and clean down; pair with Period 22 if possible.	Collaboratively test, improve and evaluate the food product	Burger, photograph and clean-down TE4-SAF-01, TE4-DIG-01
24	Project/folio	Evaluate and respond to feedback	Use Module 10 and Activity 10 to evaluate against the criteria.	Use design factors to evaluate solution quality	Evaluation and improvements TE4-DES-01, TE4-SDP-01
25	Project/folio	Complete and submit the folio	Finish evidence, check file names, back up and submit as directed.	Create written texts to document food-production processes	Complete folio TE4-DIG-01, TE4-PDP-01

Teacher to confirm before use: consecutive Periods 22-23 where possible, final resources and risk controls, assessment conditions and submission method.

Evidence, feedback and support

Evidence	Look for	Respond / support
Theory and module work	Understanding and use of key ideas	Return to the named section; model a stronger response
Project and folio	Design decisions, planning and refinement	Conference against criteria; give one clear next step
Practical observation	Safety, workflow, skill, quality and clean-down	Pause, demonstrate and recheck before continuing
Product and evaluation	Quality and evidence-based judgement	Compare the result with the original criteria

Support: model processes, use visual steps and word banks, chunk instructions, allow approved ways to show learning and plan accessible practical roles.

Practical controls: use current school procedures, allergy controls, inductions and supervision; approve recipes, ingredients, equipment and workplans before ordering or production.
